## A Note From the Commissioner

Dear Taxpayer:

I thank each of you reading this letter for doing your part to keep our tax system the finest in the world. It works well because so many of you do your best to pay your fair share. As countries around the world embrace our way of life, it is a reminder that government in a free country can only be financed through voluntary compliance and the support of the public it serves.

We have been working for many months to make this filing season the best ever. This will mean prompt refunds, accurately filed and processed returns, tax forms when and where you need them, and the right answers and assistance from courteous, respectful employees. Electronic filing is now available for everyone. We're testing exciting new approaches by letting certain taxpayers file by telephone and by doing the math for taxpayers who ask for our help.

I also want to make clear our commitment to a decade of fundamental change. Your government must simplify

the tax law. We must make it far easier to deal with the IRS. All of you who try to pay your fair share have every right to expect that the IRS will make sure others do the same. As citizens who "own" the government, you should insist that we make the best use of your tax dollars.

We are dedicated to reaching these goals. The journey requires us to modernize our computer systems; to help taxpayers do what's right in paying what they owe; to meet the highest standards of quality; to promote the highest ethical standards; and to assure diversity in our work force.

You have every right to demand that we deliver. I think we're making progress. With your support and oversight, we'll get there. Don't settle for less.

Fred T. Goldberg, Jr.

### Recycling

The tax forms and instructions you received are printed on recyclable paper. If your community has a recycling program, please recycle. (Remember to keep a copy of your return and any worksheets you used for your records.) The Internal Revenue Service tries to use recycled paper for all of its forms and instructions.

### Fast Filing

Last year over 7.5 million people filed their tax returns electronically by computer. Electronic filing is a fast and accurate way to file your return with the IRS. If you are expecting a refund, it will be issued within 3 weeks from the time the IRS accepts your return. If you have your refund directly deposited into your savings or checking account, you could receive your money even faster. Even if you are not expecting a refund, electronic filing is still a fast and accurate way to file your return.

Many professional tax preparers offer electronic filing in addition to their preparation services. A paid preparer must sign your **Form 8453**, U.S. Individual Income Tax Declaration for Electronic Filing. Even if you prepare your own return, a preparer or transmitter in your area can file your return electronically for you. For more information on electronic filing, see **Tele-Tax Information** in the index (topic no. 112).
